EDITOR'S LETTER

Ah, accessories - it's just so hard to put your finger on why we're all so utterly crazy about accessories, but we are. And there's nothing quite like a brand new Accessorize collection to get us excited with a whole new look; grab a handful of Autumn/Winter's key styles and give them your own stunning twist - that's the ticket. It never ceases to amaze us how a cute belt or bag here, a pretty necklace, bracelet or scarf there can totally transform your wardrobe and get you in the mood for a fresh new season.

It's fair to say we've made it particularly easy for you - there's just so much gorgeousness to choose from. Come with us on a magical journey around the world. Try dipping into Nordic, Native American and Peruvian style, via a trip to the Orient, and all the while with a peek back at the Seventies.

Whether it's a vintage postcard - inspired or graphic print that takes your fancy or perhaps ladylike touches, such as big floppy hats, fabulous scarves, a nod of military, or fringing, tassels and studding, there's loads of lovely things waiting for you.

Lots of Love XXX
